

3 June 2026 - Intro to databases

Data is : A collection of facts
It is information
It is everywhere.

Data comes in different formats :
Video ; Voice ect.

2 types of data: Structured data
vs. Unstructured data

STRUCTURED

→ Refers to data
stored in a table.

with rows & columns

→ Has a consistent
format.

	COL 1	COL 2
Row 1		
Row 2		
Row 3		

eg: Spreadsheet. (excel)
membership form

UNSTRUCTURED

→ Has no specific
format.

→ Format is inconsis-
-tant.

eg: Music
Podcast
Picture
Video

Social media
post.
